Visit to Ilha de Moçambique

A visit to Ilha de Moçambique is a 'must' during your stay at Coral Lodge. The former capital of Mozambique built by the Portuguese, it still has echoes of its colonial past. There are views of Sao Sebastiao Fort (1558) on the north of the island from Coral Lodge. This fort and many other colonial buildings are remnants of a bygone era, but still preserve that history. Explore the city at your own pace or let our local guide show you around and explain the islands controversial past.

Complimentary

Visit the local Macua people

If you are interested in learning about the Macua people of northern Mozambique. We can take you to visit the three local communities: Cabaceira Pequena, Cabaceira Grande and Chocas. Most of Coral Lodge staff live in Cabaceira Pequena and walk or canoe to the Lodge each day. You can visit one of their houses, the Vasco da Gama Well and the graves and ruins of an Arab community from the 12th century.

Complimentary

African Cooking

Join our chef and learn to cook his favorite Mozambican dishes at the lodge.

Complimentary

Snorkelling

A snorkel in our lagoon is a must for every guest! You can see a wide variety of colourful fish and coral just yards from the lodge. Go with our experienced dive guide for an underwater safari and learn more about the hundreds of fish including banner and pipe fish, nudibranch, lion and box fish and all kinds of other reef fish.

Complimentary

Canoeing and Paddle Boarding

Experience paddle boarding and canoeing in our sea lagoon and explore the mangroves in crystal clear water. Find the birds, mangrove crabs and other animals on your own or with the help of one of the local guides.
